1941

Fascinating Conflagration

1945

I hear much about China

1949

Mao controls China

1958

- **I visit Asia for first time**

Macau Harbor looked just right

Macau Hears Gunfire

Hong Kong Inundated

- **Thousands of refugees.**
- **Big construction projects**

My conclusion:

I'll Never see Red China

However!

1972

- **President Nixon goes to China**
- **(Brief Chow En Lai on Soviets!)**
- **It is a Whole New World**

1976

- **Mao dies**
- **Real Power Now is Deng Xiaoping**

- **Principal Communist dogma set aside**

- **Being unequal is permitted**

- **“To get rich is glorious!”**

- **GET RICH THEY HAVE DONE!**

NOW THREE CHINAS

China of Time

China of Space

China of Knowledge

China of Time 2006

- **Last Three decades match our 15 decades**
- **Standard of Living**
- **Industrial output**
- **New technologies abound**

Monetary Authorities with the largest foreign reserves in 2006.

CHINA'S DETERMINATION

- Find the energy necessary for all its plans
- Currently, 10 third-Generation Nuclear Reactors
Expected, 30 more

Currently, Coal is China's Energy Source

10-26-95

- **80 % of energy usage comes from coal**

5200 killed in coal mining accidents

In 2005

Three Gorges Dam

**Will supply
about 10 % of
current energy
use**

Ramifications to Dam are Many

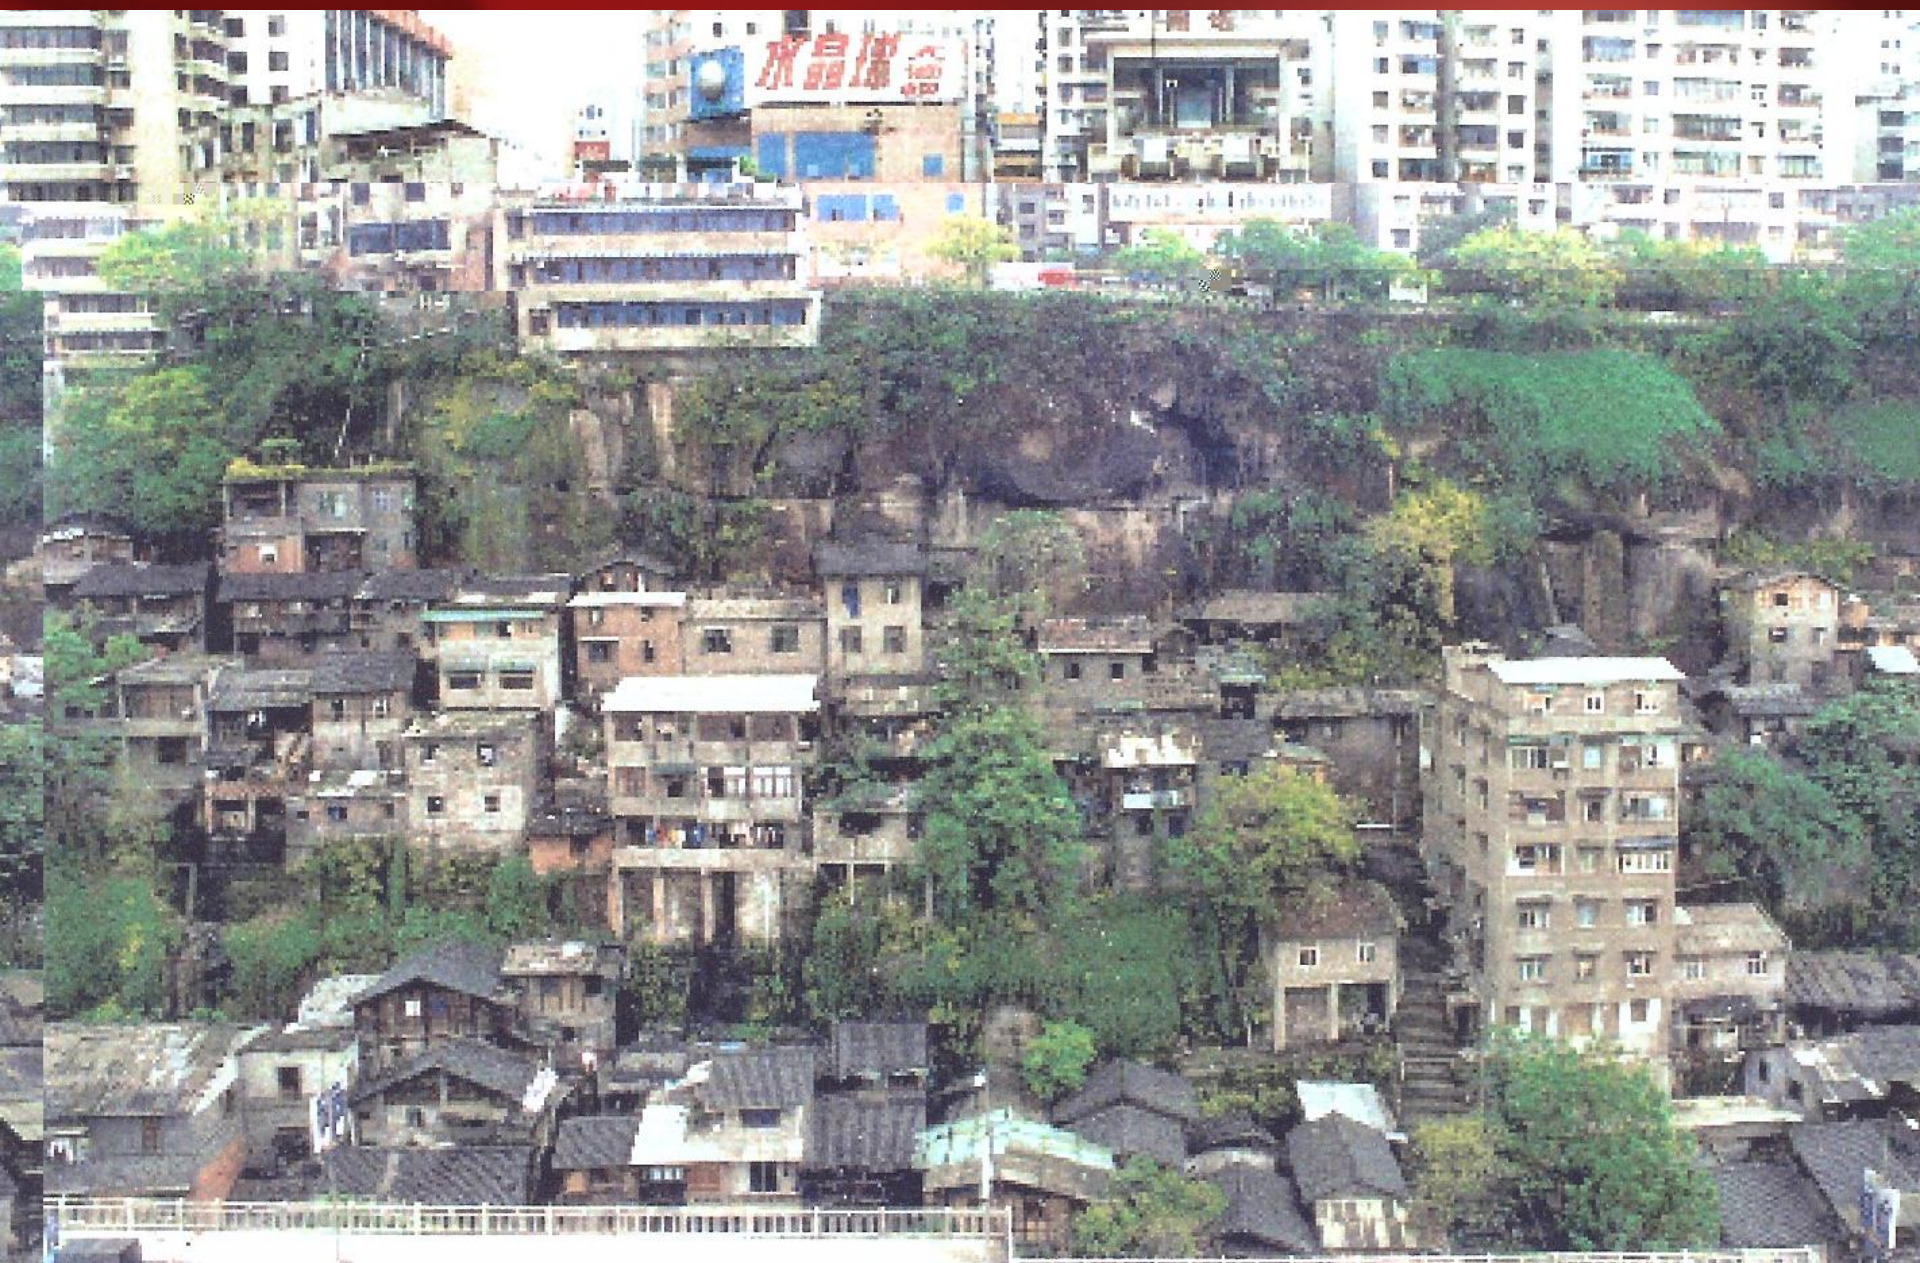

Yangtze River Source of
Much of Chinese History
and Folklore

(Temples, Cities, Historical Sites Now Submerged)

ChungKing will now be a “Seaport”

- Capital City of Sichuan Province

Second China China of Space

Space? Think Globally!

**By 2003, launched 4,300
businesses in 139 countries**

(Recently invested \$20 billion in Argentina)

**China of Space
includes Space!**

Taikonauts will moon-walk

By 2024

They plan for a Blue water Navy

The Third China

**World Leader in
Creation, Purchase—and Theft—
Of data, information
And knowledge**

Currently

More than 600,000 foreigners

Busy

Transferring Knowledge

China has some BIG Troubles

1.3 Billion to please, control

Age of Contradictions may be in the works

Possibly Chaos

- **Peasants, many have had a huge improvement in living standards**
- **Many in extreme poverty**

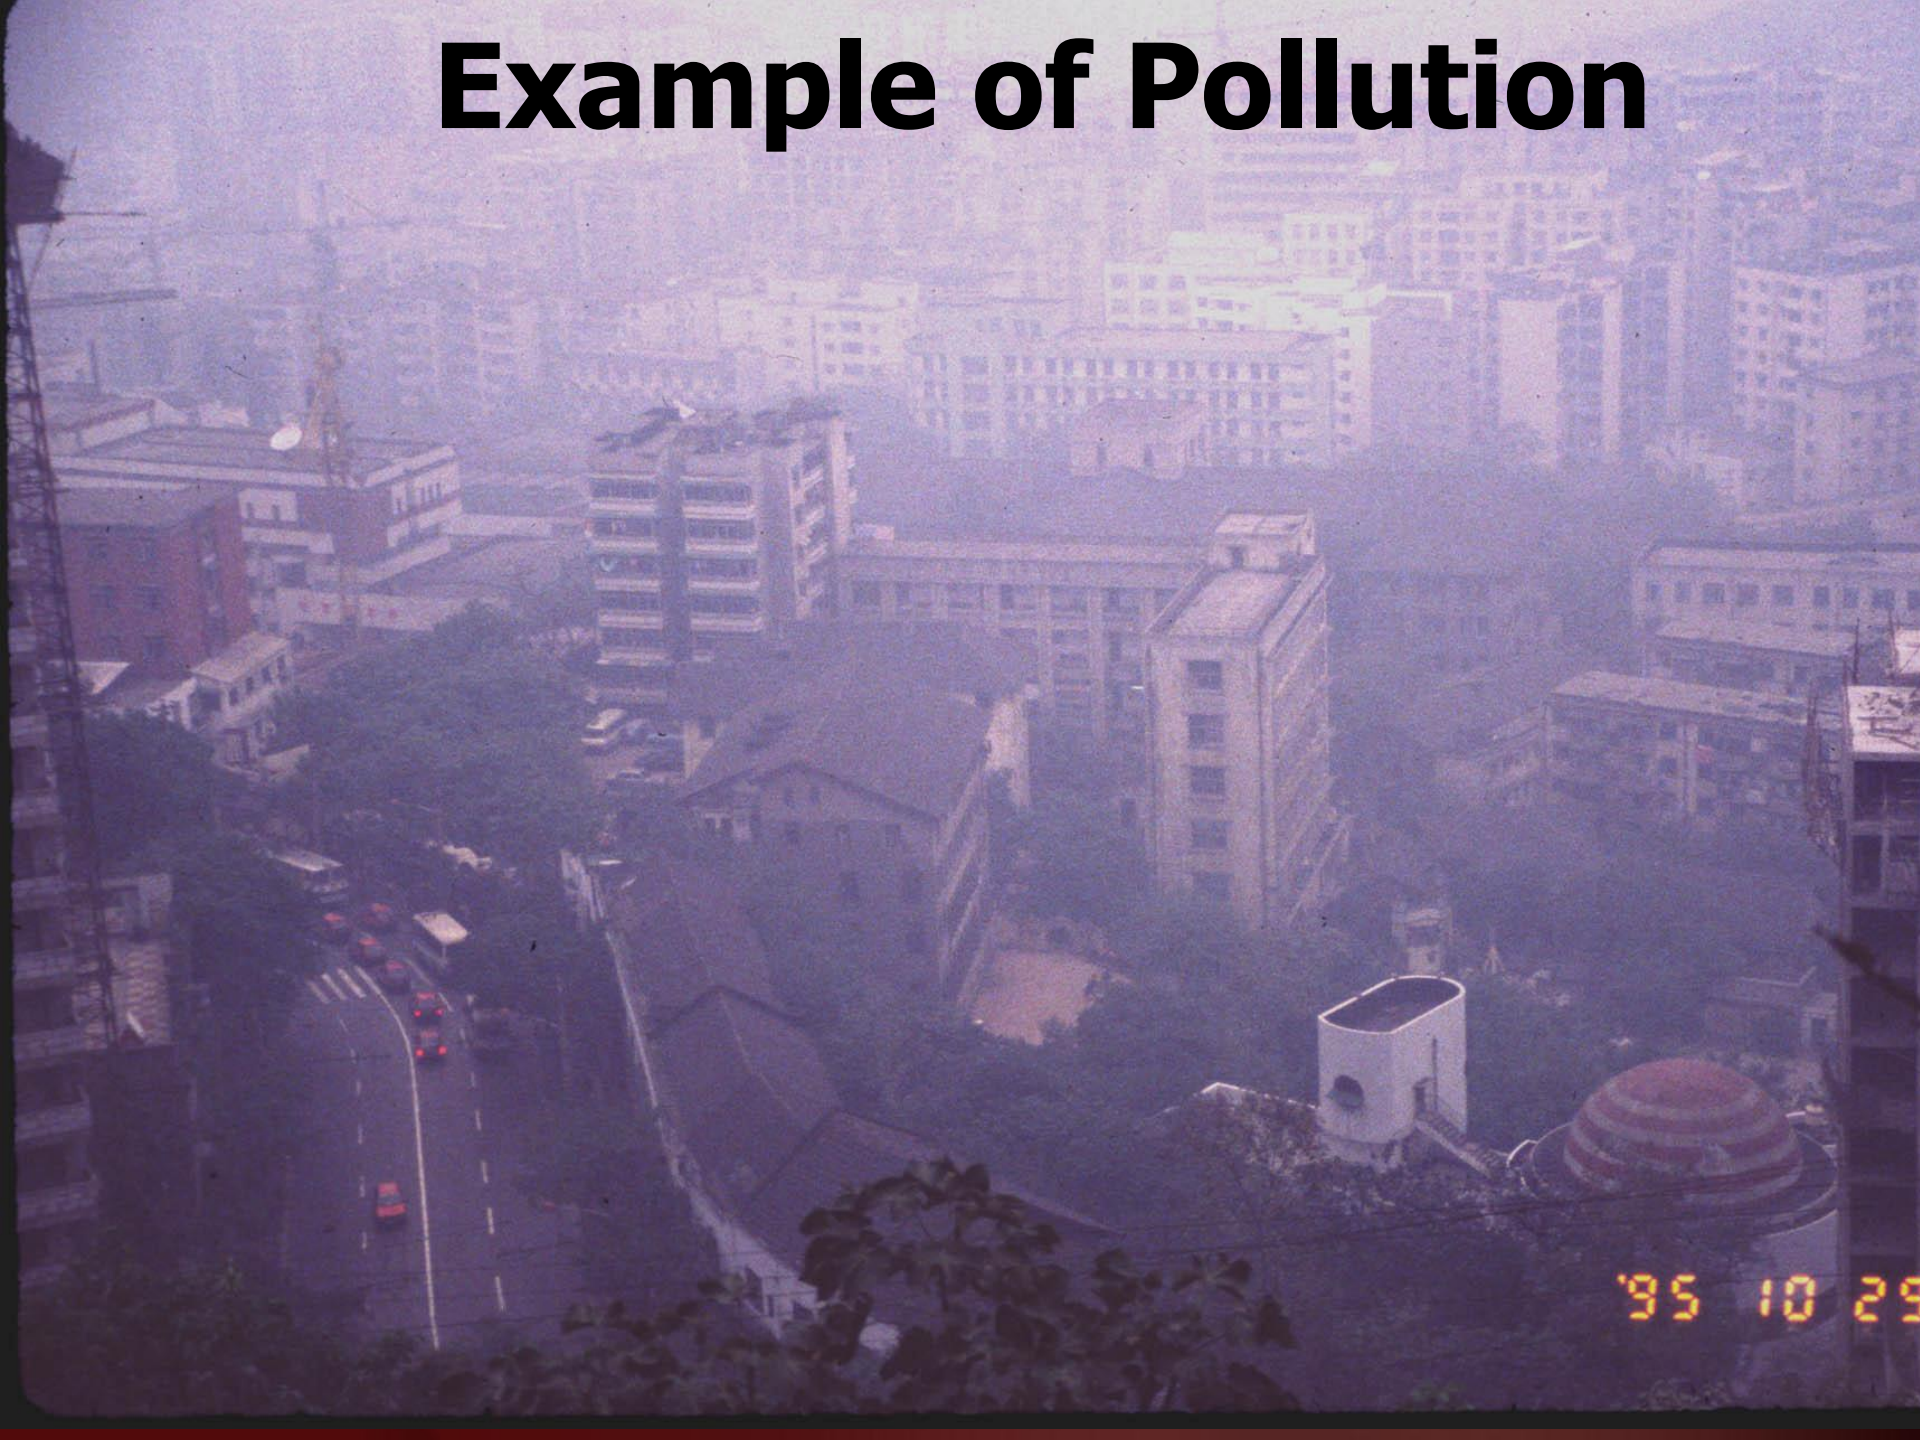

**Currently many millionaires, and some
billionaires**

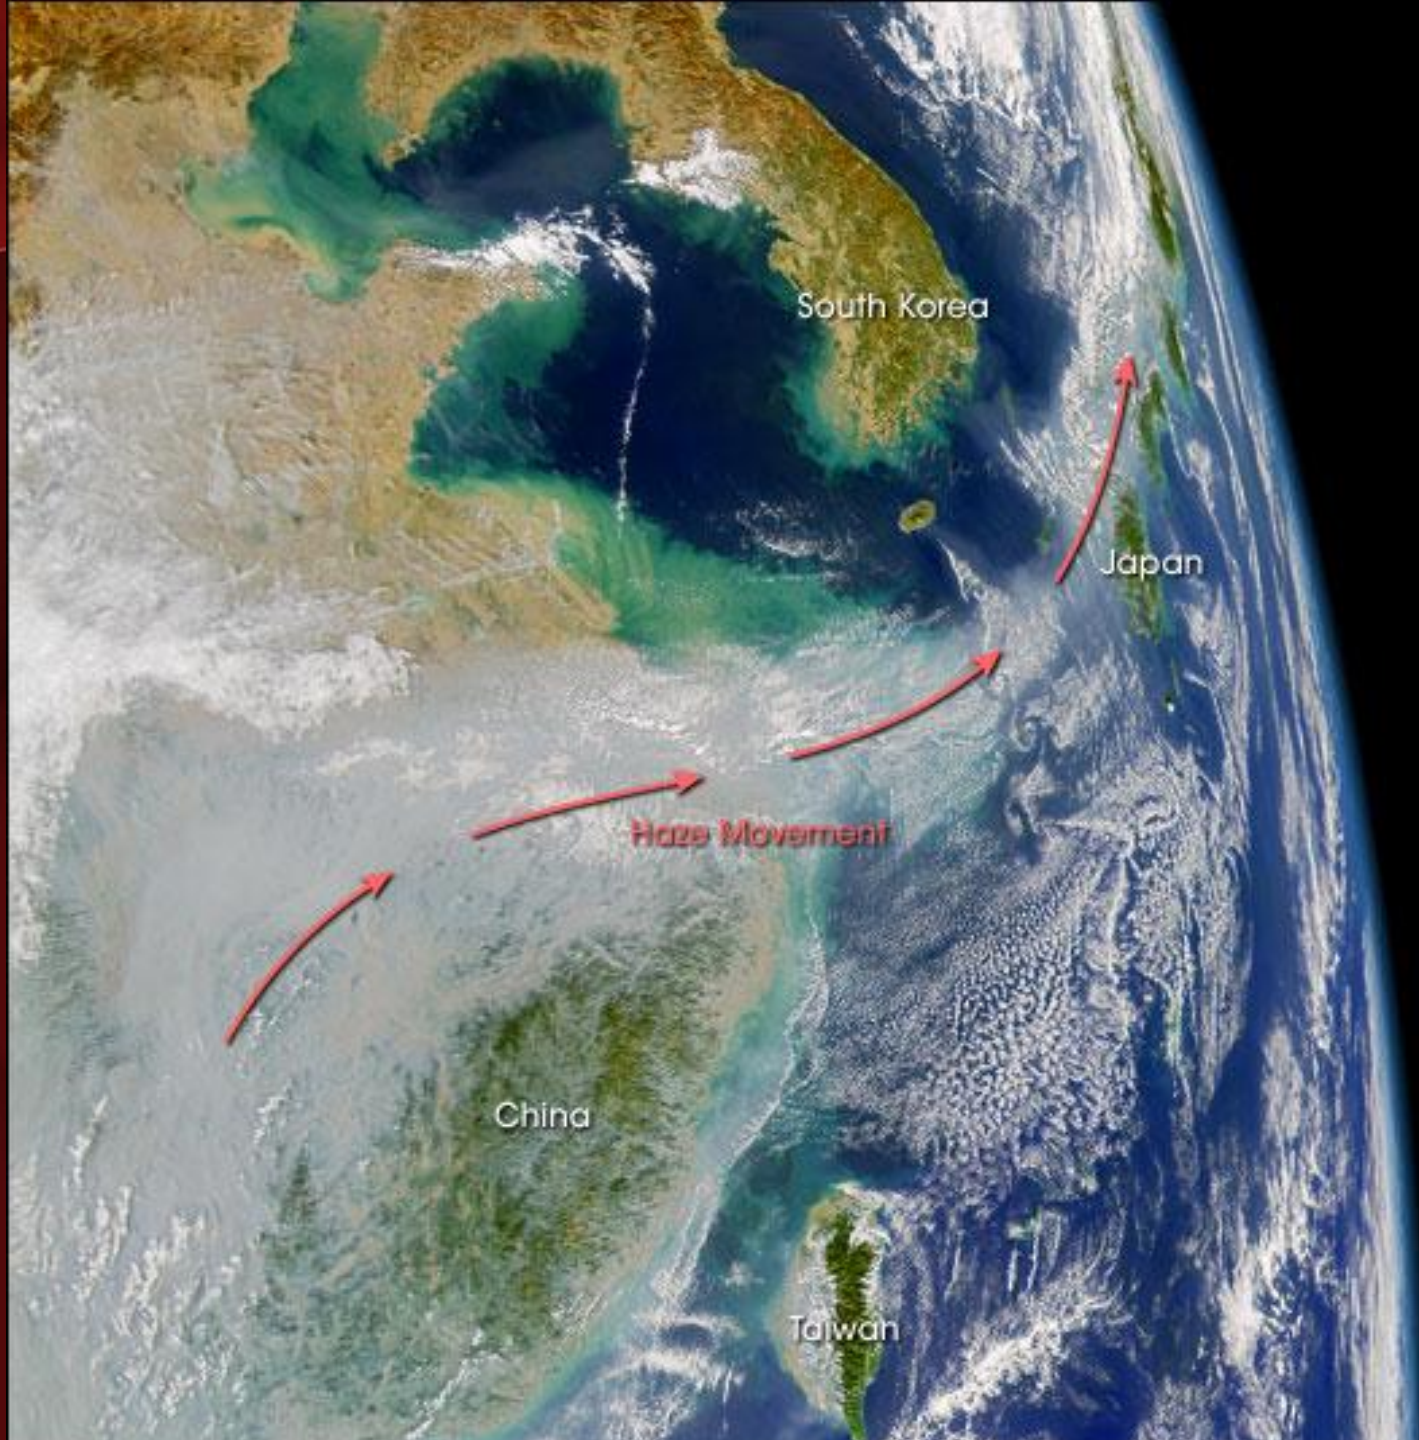

Millions of geeks

Incredibly volatile learning curve

- **The Welfare State is no longer there**
- **Many have tasted personal freedom**
- **Massive corruption**
- **Terrible pollution**

Example of Pollution

And

WAR LORDS

China's thirty provinces
are NOT equally
populated, or rich or poor,
or angry, or satisfied, or
obedient

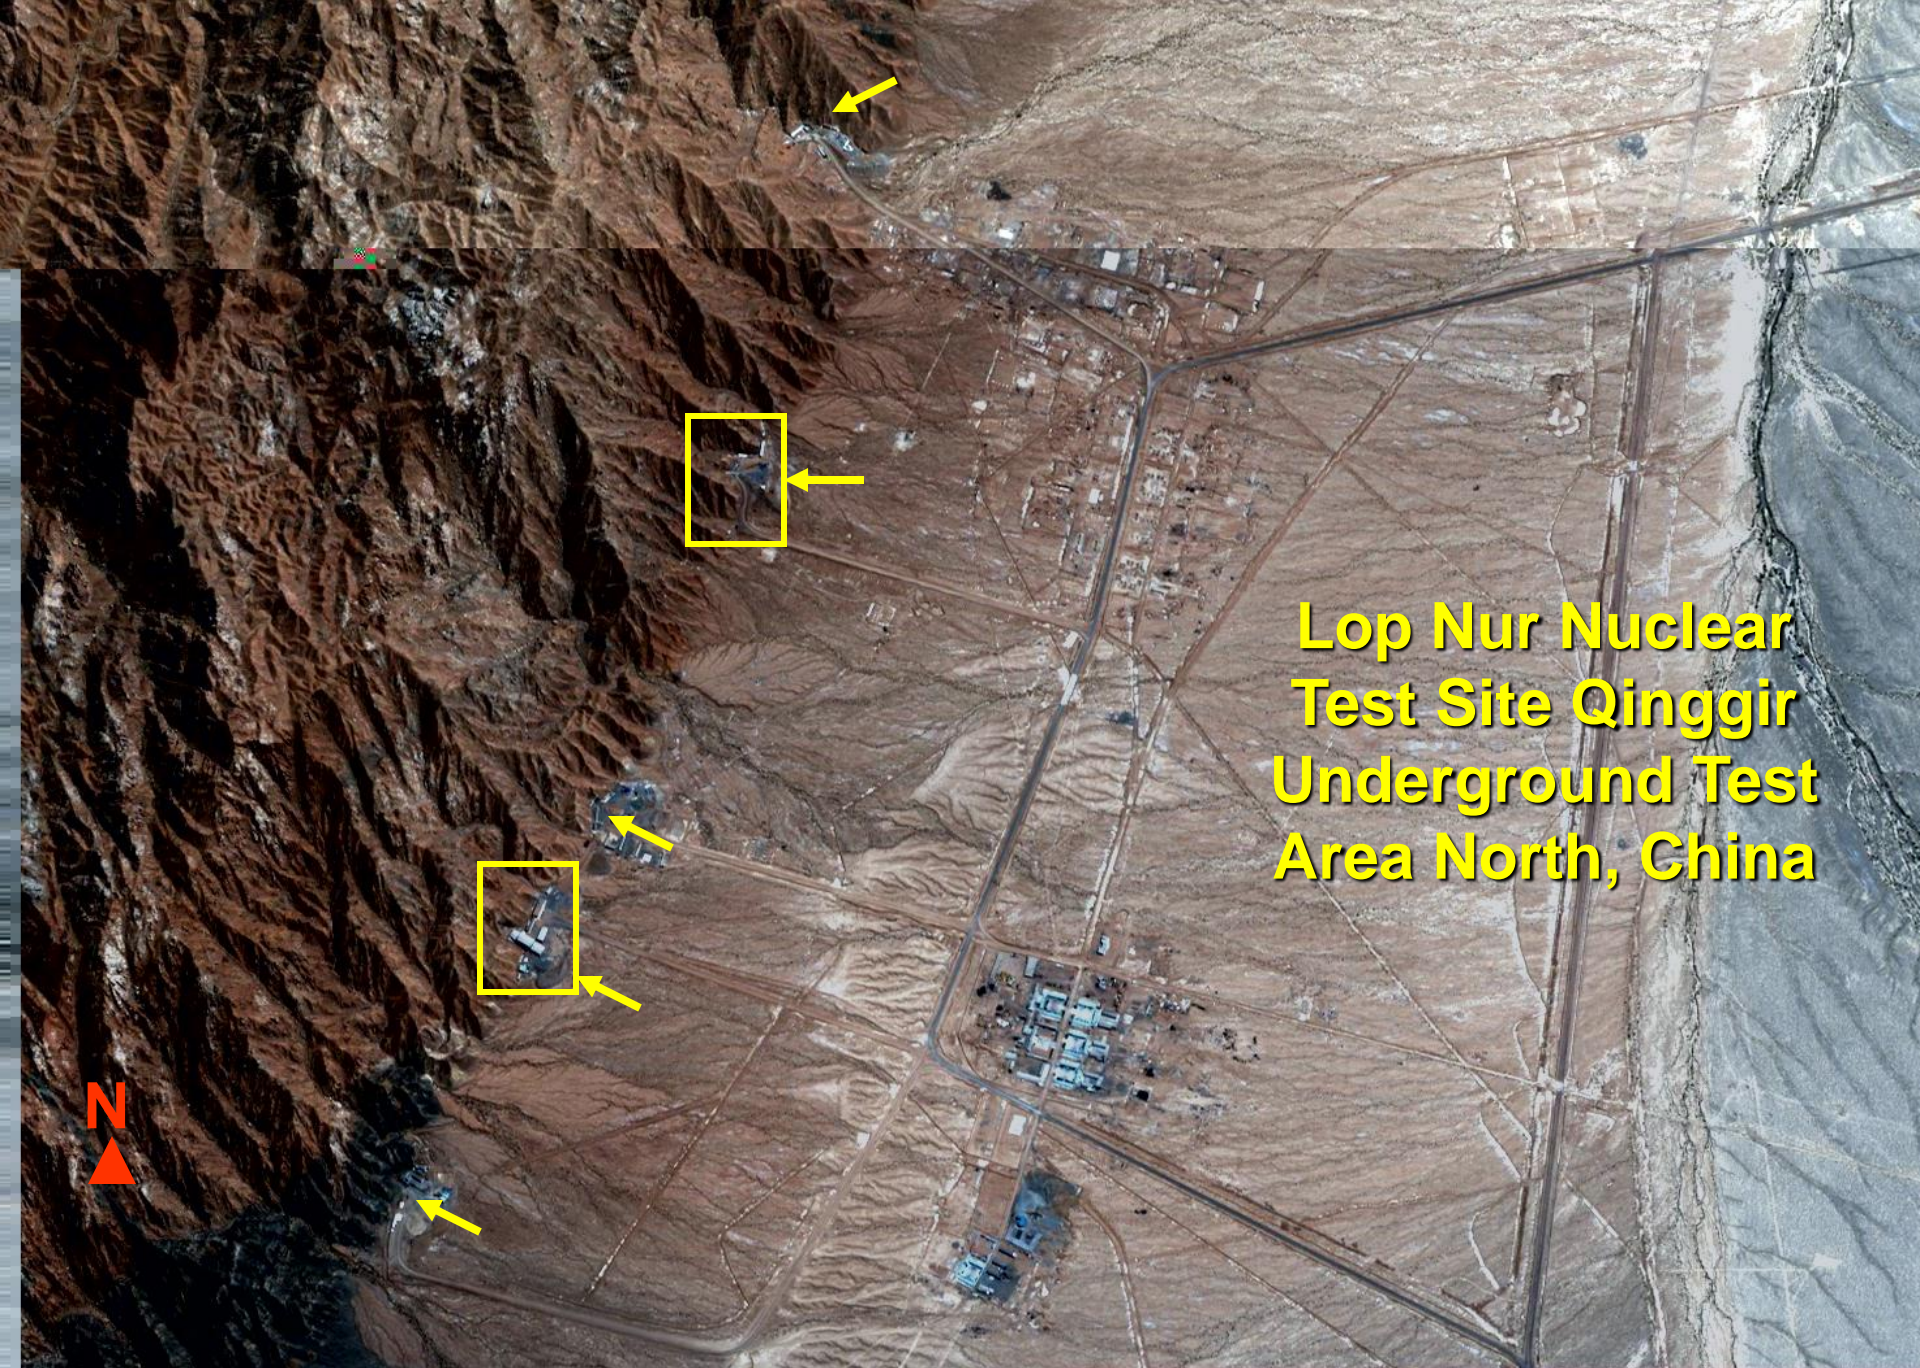

- **TIBET is one of the problems**

- **Xinjiang is another,**

Wants to secede, but no way. It is the location of the Chinese Nuclear Test Site

LOP NUR

- **1946-1996 45 tests**
 - **Four test areas,
one for atmospheric tests,
one for vertical tests,
two for tunnels**

Lop Nur Nuclear
Test Site Qinggir
Underground Test
Area North, China

- **Least interesting part of China**

Is of great interest to some of us

My recommendation

By ALL Means

GO TO CHINA

And see it for yourself
